

XVZ13TD

The Yamaha XVZ13TD. What a way to travel!

Are you one of those people who measure a trip by a different standard? Not by distance ridden but by the enjoyment you've had.

These are the kind of people who have opted out of four wheels or flying in favour of motorcycles like Yamaha's XVZ13TD "full dress" tourer.

On a motorcycle, you're still king of the road and Yamaha built the XVZ13TD to emphasise that fact. It is big, powerful, stylish and supremely comfortable, everything you need to make the most of your motorcycling.

The XVZ13TD's 1294cc vee-four engine has 16 valves and twin overhead-camshafts to give it the power to cover the ground quickly. It also has liquid-cooling to guarantee that it can hold that speed as long as you want it to. Across the city. Or across a continent.

The full fairing means that you can enjoy the outdoors without feeling its full impact when things turn rough and CLASS — Yamaha Computer Levelling Air Suspension System — combines with orthopaedically-designed seats for the most comfortable ride on two wheels.

An AM/FM radio and stereo tape deck add the luxury touch and roomy built-in luggage capacity means that you can dress in style when you get where you're going.

Yamaha XVZ13TD. It's one of the most exclusive modes of transport you can experience. It's travel at speed, in comfort and with pleasure. Destination anywhere. Good time guaranteed!

Music on the move

Housed within the full fairing of the XVZ13TD is an AM/FM stereo radio cassette tape player so that you can enjoy music on the move. So quiet is the ride of the XVZ13TD that the radio is clearly audible at highway speeds. The audio system is within easy reach and the speakers are well protected and waterproof. Because the audio system lifts out, you can take it with you. Which is a whole lot better than having someone else taking it with them.

Automatic systems watch

Inside the aerodynamic fairing is the instrument console with the usual speedometer, tachometer and mileage counter, along with a digital clock and remote headlamp beam adjuster.

A computerised monitoring system keeps an electronic eye on fuel, oil and brake fluid levels as well as suspension settings.

Suspension with CLASS

Comfort and stability are amongst the most important things for a long distance tourer. That's why we've fitted the XVZ13TD with a Computer Leveling Air Suspension System (CLASS). Controlled by an on-board microcomputer and compressor it controls front and rear spring loads via air pressure, so that the bike always rides straight and level, whatever the load or road conditions.

Travel trunk for more luggage

The XVZ13TD has almost as much luggage carrying capacity as some small cars! The travel trunk integral with the rear bodywork is both roomy and easy to pack.

Stylish side panniers

Twin side panniers carry the bulk of the XVZ13TD rider's luggage. They stylishly blend into the machine's wind-tunnel designed bodywork.

Ventilation system

The XVZ13TD bodywork incorporates a clever ventilation system that cools or warms the rider at his command. Ventilation louvers near the rider's knees can be closed to protect the rider from engine-generated heat or opened up to allow a warm flow of air for cool-weather riding.

XVZ13TD TECHNICAL SPECIFICATIONS ENGINE

Type	4-stroke, liquid-cooled, DOHC 4 valve, V four cylinder
Displacement	1294 cc
Bore & stroke	79.0 × 66.0 mm
Compression ratio	10.5 : 1
Max. power (ISO)	86.5 PS (63.6 kW) @7,000 rpm
Max. torque (ISO)	11.42 kg-m (112.0 Nm) @5,000 rpm
Lubrication	Wet sump
Carburation	Mikuni BDS35 × 4
Ignition	Transistor controlled
Starter system	Electric
Fuel tank capacity	20.0 l
Oil capacity	4.7 l
Transmission	5-speed
Final transmission	Shaft drive

CHASSIS

Overall length	2,540 mm
Overall width	920 mm
Overall height	1,520 mm
Seat height	650 mm
Wheelbase	1,610 mm
Min. ground clearance	145 mm
Net weight	355 kg
Front suspension	Telescopic forks
Rear suspension	Swinging arm (Monocross)
Front brake	Dual Ø250 mm discs
Rear brake	Single Ø287 mm disc
Front tyre	120/90-18 65H
Rear tyre	140/90-16 REINF 77H

Always wear a helmet, eye protection and protective clothing. Yamaha encourage you to ride safely and respect fellow riders and the environment.
